Summary

200-level Computer Science student and full-stack web developer with a 4.83 CGPA. Built and deployed a MERN e-commerce platform with online payments. Interested in aerospace technology and software engineering.

Education

B.Sc. Computer Science (in progress), Adeleke University, Nigeria. CGPA 4.83/5.0. Dean's Award for academic excellence.

Full Stack Web Development, SQI College of ICT, Ogbomoso, Nigeria. Completed 2024. Certificate pending.

Projects

E-commerce platform (MERN): React/Vite frontend deployed on Vercel, Node/Express API deployed on Render, MongoDB Atlas database.

- Integrated Paystack payments with a payment verification flow and email order confirmations through Nodemailer.
- Built a REST API with filtering and pagination over ~35,000 seeded products, plus live search autocomplete and product ratings.
- Implemented cart (React Context), checkout, and a My Orders page.
- Built user signup, login, and account verification with JWT authentication, bcrypt password hashing, and Formik/Yup form validation.
